

Chubb safes King Cobra is a very affordable and secure solution for most needs. It offers good and balanced protection against theft and fire.

King Cobra

PROTECT AGAINST THEFT AND FIRE

The King Cobra includes a wide range of quality features, which all combine to provide durable and reliable products for cash protection, documents, vital records and other valuable items.

The King Cobra has been tested and approved by ECB•S to security level S2 in accordance with EN 14450.

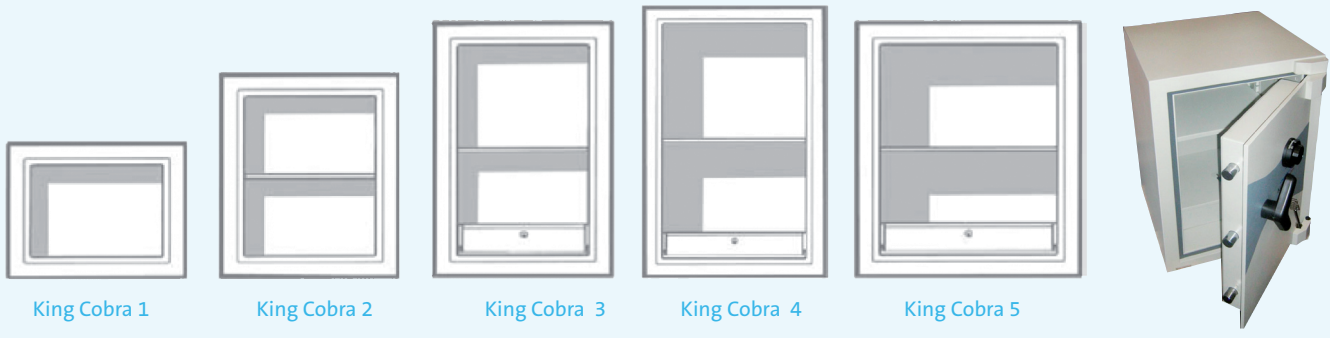

Key Features

- **Body and Barrier:**
The entire body has an effective barrier thickness of 65mm. It is made up of an inner and outer body of steel encasing a Chubb safes high density barrier material.
- **Door**
The door is constructed from a 10mm steel plate with additional protection over the locking cover. A Fire Resistance material is incorporated at the back panel of the door.

- **Boltwork with New "Anti Heeling" Features**
Moving, 28.5mm diameter, solid steel bolts on the front edge of the door engage securely into the safe body. And now comes with New "Anti Heeling" Features, which provides stronger bolts protection and more resistant of buckling under prying attack. Fixed bolts on the rear edge of the door locate behind a solid rebate bar and secure the rear of the door into the body of the safe.
- **Fire Resistance:**
Offers 30 minutes fire protection for documents. Tested in accordance with Japanese fire test J.I.S S1037.
