

CURL

design Sebastian Bergne

**LUCE
PLAN**

Type: Table
Lamps: LED 8W CRI >90, dimming switch EEL: A
from 10 to 100%, beam angle 110*
Product use: Indoor
Materials: body in die-cast aluminium, reflector in opaque
technopolymer injection molded
Colors: White/White with structure finishes mirror

Description: Curl, in a form of concise originality, expresses complex design thinking in which function is balanced with interaction and play. Curl contains a special LED module that permits variation of the temperature of white light, from 2400 to 3500 Kelvin, thanks to simple rotation of the diffuser. The switch at the center of the base also has a dimmer function.

Insulation class:   

Reference code: 1D7600000003 white
1D7600000018 mirror

*The LED lamps cannot be changed in the luminaire
