

AZEL™
by AZ e-lite

LIGHT IT YOUR WAY

The New **MONO** LED Lamp
Functionality and portability combined.

A tall, slender, white lamp with a black circular light fixture at the top and a power button below it. The lamp is shown in a studio setting with a soft shadow.

INTRODUCING THE NEW AZEL MONO LAMP WHICH GIVES YOU THE FREEDOM TO ILLUMINATE YOUR SPACE EXACTLY AS YOU CHOOSE. THIS INNOVATIVE LAMP IS ENGINEERED FOR VERSATILITY AND DESIGNED TO IMPRESS.

ENTER A NEW ERA OF ILLUMINATION

Convenient Dual Functionality

The AZEL MONO boasts versatility and functionality. You can easily transform it from a table lamp to a handheld light, making it your perfect lighting companion.

Durable And Long-Lasting

The AZEL MONO is built to last with life span of up to 25,000 hours.

Unparalleled Performance

Powered by innovative LED technology, the AZEL MONO delivers superior lighting performance at remarkably low levels of energy consumption.

Sleek, Aesthetic Design

The AZEL MONO heightens its appeal with a sleek, stylish design. Available in a range of vibrant colours, these lights will fit seamlessly with your living space.

MORE THAN JUST A BEDSIDE LAMP

Dimmable at a touch and removable from its base, the AZEL MONO Lamp can double up as mood lighting for your living room or table lighting for romantic al fresco dining. What's more, with built-in Qi technology, you can even use your lamp to wirelessly charge your mobile phone simply by placing it on the lamp base.

The MONO Lamp fits your interior deco with its sleek and modern design.

Available in 5 colours:

Black
Classic, elegant design which adds sophistication to your interior decoration

Blue
Instill tranquility and coolness with this refreshing MONO lamp

Red
Inject passion and excitement with this gorgeous and outstanding colour

White
Clean, simple design that suits every living space

Yellow
Create a fun, warm and vibrant atmosphere with this cheerful colour

One-touch switch for easy control

Charge your phone wirelessly on the Qi-enabled charging base

The lamp can be detached from the base to function as a portable handheld light for added mobility

By creating a magnetic field to induce voltage, Qi Technology enables users to wirelessly charge their mobile phones and other devices without using a cable.
