

# Mini Dehumidifier

Thank you for your purchase of origo Mini Dehumidifier. The mini Dehumidifier uses Peltier technology (no compressor), which makes it light, quiet and environmental friendly. It is perfect for small rooms. Poor ventilation causes musty odour and fungus in wardrobes, larder, cabinet or storage room...etc. The Petite Dehumidifier eliminates this problem by keeping them free of unwanted moisture.

## MAIN PARTS

## ATTENTION

- Read all instructions and warnings carefully before use.
- This product is for indoor use only.
- This product is not a toy. Do not allow children to play it.
- This product is designed for household use only.
- Always keep the unit at upright position to avoid water leakage.
- Keep the front air inlet and the top air outlet free from air blocking materials such as clothing, plastic bag or papers.
- Avoid using the AC/DC power adaptor in wet or damp place, and position it in areas where the air ventilation is good.
- After using the Dehumidifier, the user should switch the unit off by pressing the "On/Off" button to "Off" position.
- If the unit has been properly connected and no power is flowing, have the AC/DC power adaptor and the Dehumidifier unit checked by Service Centre.
- To avoid electric shock, do not open the unit. There are no user serviceable parts inside.
- Any repair work must be done by qualified technician appointed by our distributors.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible or their safety. Children should be supervised to ensure that they do not play with the appliance.

## OPERATION

- After removing the packing materials, there should be two items:
  - a. Mini Dehumidifier
  - b. AC/DC Power adaptor
- Plug the DC power jack of AC/DC power adaptor to the DC power socket, then connect the AC/DC power adaptor to the appropriate main socket.
- Press the "On/Off" button to "On" position, the Mini Dehumidifier will begin to operate. The green LED will be turned on. Listen and feel for the air blowing from dry air outlet. [as Fig.1]
- To switch off the unit, press "On/Off" button to "Off" position, the Mini Dehumidifier will be turned off. [as Fig.2]

Fig.2

## WATER TANK

- When the water tank is full, with approximately 500ml of water collected, the unit will be switched off automatically and the "Yellow" LED will be on.
- To remove the water tank, first switch off the Mini Dehumidifier, press "On/Off" button to the "Off" position. Then, remove the water tank from the unit and pour the water out to the toilet or bathroom. Put the water tank back into the unit. To continue dehumidifying, press the "On/Off" button to "On" position again.

## MAINTENANCE

- Before cleaning the unit, turn off the Mini Dehumidifier and unplug the adaptor from the main socket first. Use a piece of soft cloth to clean the surface of the product or use a brush to wipe the dust off the grills of the air inlet.

## MODEL & SPECIFICATION

Model	: DH-250
Capacity	: Approx. 250ml/day at 30°C, 80% RH
Cooling element	: Thermo-electric Peltier module
Fan	: 80mm x 80mm DC Brushless motor
Power adaptor	: 9V d.c. 2.5Amp
Power consumption	: 22.5W
Removable water tank	: 500ml
Water level detector	: Automatic switch off with "Yellow" LED Indicator when water tank is full
Product dimension	: 154(W) x 218(H) x 130(D) mm
Working environment	: Over 15°C, over 40% RHCcapacity

## WARRANTY

This product is guaranteed for 1 year (commercial use for 3 months) from the date of receipt against manufacturing defect. The warranty does not cover housing and water tank, damage or defect caused by negligence or use not according to this instruction manual.
